

CHSC6350 STUDENT LEARNING OBJECTIVES:

After completing this course, students will be able to:

- describe the school setting as a unique system for conducting health education/health promotion.
- analyze challenges in implementation and evaluation of programs and develop resolutions.
- advocate for policies supportive of school health.
- describe scope and sequencing for curricula and the curriculum development process.
- identify funding sources and resource availability for school health promotion programs.
- experience field work in school-based projects.
