INHL 631 Violent Conflict and Conflict Resolution with Applications to Health and Development

Learning objectives:

At the end of the course students will be able to

1. Compare and contrast the various theories of violent conflict.
2. Describe the causes of violent conflict.
3. Compare and contrast policy and program approaches to conflict prevention/resolution.
4. Describe the public health effects of violent conflict and health sector oriented approaches to conflict resolution
5. Identify elements of health and development sector strategies that may aggravate/mitigate conflict.
