A. EDUCATION

- 2009: Postdoctoral, Robert Wood Johnson Health and Society Scholars Program
Field: Psychoneuroimmunology
University of California, Berkeley, School of Public Health, Berkeley, CA
University of California, San Francisco, Center for Health and Community,
San Francisco, CA
- 2007: Doctor of Science, Harvard University, School of Public Health, Boston, MA
Department of Society, Human Development and Health
Major: Social Epidemiology; Minors: Health Disparities, Social Psychology
Interdisciplinary Concentration in Women, Gender and Health
- 2000: Master of Arts, Columbia University, Teachers College, New York, NY
Field: Psychology
- 1999: Bachelor of Arts (with Honors), University of Chicago, Chicago, IL
Field: Psychology and Sociology

B. PROFESSIONAL EXPERIENCE

- 2020 – Present: Associate Professor, Department of Social, Behavioral and Population Sciences
Associate Professor, Department of Global Community Health and Behavioral
Sciences (2020 – 2021)
Director, Society, Health, and Racial Equity (SHARE) Lab
Associate Dean for Research
Tulane School of Public Health and Tropical Medicine, New Orleans, LA
- 2016 – 2020: Human Sciences Associate Professor
Department of Human Development and Family Studies
Director, Center for Health Ecology and Equity Research (2016-2019)
Auburn University, College of Human Sciences, Auburn, AL
- 2013 – 2016: Assistant Professor (tenured and promoted to Associate in 2016)
Department of Epidemiology and Biostatistics
University of Maryland, College Park, School of Public Health
Secondary: Assistant Professor, Department of Epidemiology and Public Health
University of Maryland, Baltimore, School of Medicine
- 2009 – 2013: Assistant Professor
Department of Behavioral Sciences and Health Education
Emory University, Rollins School of Public Health, Atlanta, GA
- 2007 – 2009: Postdoctoral Scholar
Robert Wood Johnson Health and Society Scholars Program
University of California, Berkeley, and University of California, San Francisco
- 2004 – 2007: Research Assistant
University of Washington, School of Social Work, Seattle, WA
- 2003 – 2007: Predoctoral Fellow
W.K. Kellogg Fellowship in Health Policy
Harvard School of Public Health, Boston, MA

2003 – 2004: Research Fellow
Collaborative Opportunities Program
Cambridge Center for Multicultural Mental Health Studies, Somerville, MA

C. HONORS AND AWARDS

C.1. AWARDS AND RECOGNITION

2021: Outstanding Achievement and Commitment to Excellence in Total Competitive Research Funding, Tulane University
2019: Outstanding Graduate Mentor Award, Auburn University
2018: Elected Fellow, Academy of Behavioral Medicine Research
2018: Editor's Choice Article, Psychoneuroendocrinology
2015: Honoree, University of Maryland, College Park 17th Annual Research Leaders
2015: Honoree, University of Maryland, College Park, 8th Annual University-Wide Celebration of Scholarship & Research, Honoree
2015: University of Maryland, Open Access Fund Recipient
2014: RAND Summer Institute, Scholarship to attend the Mini-Medical School for Social Scientists, and the Demography, Economics, Psychology, and Epidemiology of Aging Conference
2011: Meritorious Paper Award, Society of Behavioral Medicine, 32nd Annual Meeting and Scientific Sessions, Washington, DC
2008: Summer Workshop on African American Aging Research, Michigan Center for Urban African American Aging Research, Travel Award
2008: American Legacy Foundation Scholarship to Increase Diversity in Nicotine and Tobacco Research, Society for Research on Nicotine and Tobacco, Travel Award
2006: Best Student Abstract Award, American Public Health Association, Asian and Pacific Islander Caucus
2002 – 2003: Tuition Scholarship, Harvard School of Public Health

C.2. OTHER DISTINCTIONS AND SPECIAL RECOGNITION

2023: Visiting Scholar, Population Research Center, University of Texas at Austin
2017: Keynote Speaker, Quint State Southeastern Symposium on Child and Family Development
2016: Keynote Speaker, College of Human Sciences Centennial Convocation, Auburn University
2016: Keynote Speaker for the University of Nebraska, Minority Health Disparities Initiative and Research, Evaluation, & Analysis for Community Health, Minority Health Conference
2015: TEDx Grand Rapids, Invited Speaker
2015: Selected to attend the Robert Wood Johnson Foundation, Health & Society Scholars, Leadership Development Workshop, New York, NY
2015: Invited to be the 2015 Martin Luther King, Jr. Grand Rounds Speaker, University of Michigan, Department of Psychiatry, Ann Arbor, MI
2014 – 2015: Faculty Fellow, Advancing Faculty Diversity (AFD), Office of Diversity & Inclusion, ADVANCE Program for Inclusive Excellence, University of Maryland, College Park
2014: National Institute on Aging, Society for Affective Science Pre-Conference for "Rising Young Stars"
2014: National Institute on Aging, Office of Special Populations, Scholar Spotlight
2010: Invited Speaker for Robert Wood Johnson Foundation, Presentation for National Institutes of Health, National Center on Minority Health and Health Disparities

2010: Invited Panelist for the Institute of Medicine (IOM), LGBT Health Issues and Research Gaps and Opportunities
1999: Graduation with Honors in Psychology, University of Chicago
1998 – 1999: Psi Chi Psychology National Honor Society, University of Chicago Chapter
1995 – 1999: University of Chicago, Dean's List

D. ACADEMIC, SCIENTIFIC, AND RESEARCH GROUPS

D.1. PROFESSIONAL MEMBERSHIPS

American Association of Immunologists
American Psychosomatic Society
American Public Health Association
Association of Schools and Programs of Public Health
Society of Behavioral Medicine
Society for Epidemiologic Research

D.2. ELECTED AND INVITED MEMBERSHIPS

Academy of Behavioral Medicine Research (Elected Fellow, 2018)
Aging, Metabolism, Emotion (AME) Center (Core Collaborator)
Core Center for Clinical Research, University of Alabama at Birmingham
Cross-National Initiative on Place, Migration and Health (Founding Committee, Network Member)
Diversity Scholars Network, National Center for Institutional Diversity, University of Michigan
Kellogg Foundation, Kellogg Fellows Leadership Alliance
Maryland Population Research Center, University of Maryland (2013 – 2016)
Robert Wood Johnson Foundation, Health and Society Scholars Alumni Network
Telomere Research Network, Health Disparities Committee

D.3. ADVISORY BOARDS

2023 – Present: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), Workshop Planning Committee: Biological Consequences of Racism, Marginalization, and Discrimination
2023 – Present: Racial Equity Initiative, Critical Thought Partner, University of Washington
2020 – Present: County Health Rankings and Roadmaps, University of Wisconsin Population Health Institute, Scientific Advisory Group Member
2022: Health Affairs (Journal) Planning Meeting on Racism and Health
2022: National Institute of Nursing Research (NINR) Advisory Council Working Group on Inclusion
2021 – 2022: Centers for Disease Control and Prevention Division for Heart Disease and Stroke Prevention's Health Equity Indicators Project, Subject Matter Expert
2021: National Academies of Sciences, Engineering, and Medicine, Workshop on Reducing Inequalities for LGBTQ Adolescents, Planning Committee
2017 – 2020: Health Disparities Education, Awareness, Research, and Training Consortium (HDEART), Steering Committee
2018 – 2019: American Public Health Association, Asian & Pacific Islander Caucus for Public Health (APIC), Mentoring Program
2019: Think Tank on the Measurement of Racial and Ethnic Discrimination and Health, Johns Hopkins University
2012 – 2013: Lupus Advisory Group, National Center for Cultural Competence (NCCC), Lupus Initiative at the American College of Rheumatology (ACR), Georgetown University Center for Child and Human Development, Advisory Member

2010 – 2012: HIV & Inequality Working Group, University of California, Berkeley, School of Law
2010 – 2012: Gender Identity in U.S. Surveillance (GENIUSS) Group, The Williams Institute, University of California, Los Angeles
2008 – 2010: Sexual Minority Assessment Research Team (SMART), The Williams Institute, University of California, Los Angeles

E. RESEARCH GRANTS

E.1 ONGOING AND AWARDED (14 ACTIVE)

Agency / Number: **NIH-AHRQ K01HS029701**

Principal Investigator: Santos, Tatiane

Role / Effort: Co-Mentor (In-kind)

Period of Support: 9/30/2023 – 9/29/2028

Title: Not-For-Profit Hospital Community Benefit: Multi-Sectorial Collaboration in Local Health Planning to Improve Population Health, Equity, and Hospital Investment in the Social Determinants of Health

Description: The purpose of this study is to estimate the effect of federal and state-level community benefit requirements on not-for-profit hospital spending in substance use disorder health outcomes and health equity. This aim will be supported through training in health equity and community-engaged qualitative research.

Agency / Number: **NIH-NIDA R01DA058938**

Principal Investigator: Crane, Heidi M.

Role / Effort: Co-Investigator (10%)

Period of Support: 09/01/2023 – 06/30/2028

Title: Understanding Health Inequities at the Intersection of the HIV and Substance Use Epidemics Across Racial/Ethnic and Other Underserved Populations

Description: The goal of this proposal is to develop a better understanding of social, cultural, structural and other factors that lead to health disparities for underserved racial/ethnic and marginalized populations of people with HIV at the intersection of substance use and HIV, particularly methamphetamine, cocaine/crack, and illicit opioid use.

Agency / Number: **NIH-NIMHD R01MD019235**

Principal Investigator: Danila, Maria

Role / Effort: Subaward PI (5%)

Period of Support: 08/17/2023 – 02/29/2028

Title: Improving COVID-19 Vaccine Uptake Among Racial and Ethnic Minority Groups with Rheumatic Diseases

Description: This project utilizes community-engaged methods to develop and test the effectiveness of a multi-modal intervention that combines “storytelling” videos and patient navigation to increase uptake of recommended COVID-19 vaccination among Black and Latinx autoimmune rheumatic disease patients.

Agency / Number: **NIH, Office of the Director U01OD033242**

Principal Investigator: Chae, David H.

Role / Effort: Principal Investigator (30%)

Period of Support: 09/23/2021 – 08/31/2026

Title: Promoting Color Brave Conversations in Families: A Public Health Strategy to Advance Racial Equity

Description: This study focuses on the role that families can have in addressing racism, an important yet under-leveraged point of intervention, and tests the efficacy of a multi- module app in promoting productive, color-conscious, and anti-racism conversations between parents and their children. It is hypothesized that the app-based “Color Brave” intervention we propose will reduce racial bias and the perpetration of racism, and promote support for restorative societal policies—all of which are important to address racial inequities in health.

Agency / Number: **NIH-NIA R01AG077934**
Principal Investigator: Valles-Ramirez, Jesus
Role / Effort: Subaward PI (10%)
Period of Support: 09/15/2022 – 05/31/2026
Title: Structural Discrimination and Discrimination in Older Men’s Health Inequities
Description: The purpose of this study is to assess the relationships among health, structural racism and discrimination, stigma, resources, and biomarkers of health and aging in older men among sexually and racially diverse older men.

Agency / Number: **NIH-NIMHD R01MD015715**
Principal Investigator: Yip, Tiffany
Role / Effort: Subaward PI (10%)
Period of Support: 08/23/2021 – 04/30/2026
Title: Social-Environmental Predictors of Sleep Disparities During the Transition to College
Description: This study will determine the impact of social and environmental stress on racial disparities in sleep during and after the transition to college.

Agency / Number: **NIH-NIMHD K99MD018629**
Principal Investigator: Perez, Amanda
Role / Effort: Co-Sponsor / Co-Primary Mentor (Effort: In-kind)
Period of Support: 08/02/2023 – 02/28/2025
Title: Racism-Related Stress and Birth Outcomes Among Latinas: New Tools for Maximizing Conceptual and Methodological Validity
Description: This project seeks to create and validate a Anticipatory Racism Threat scale for use among Latinas, and examine associations with low birth-weight and preterm birth among Latina mothers. The R00 phase objectives include developing and testing associations between a novel count-level indicator of area-level racial bias and county-level birth outcomes among Latinas.

Agency / Number: **Lupus Research Alliance**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (Effort: In-kind)
Period of Support: 01/25/2023 – 01/24/2025
Title: Adverse Birth Outcomes Among Black Women Living with Lupus
Description: This award supports the career development of the doctoral student through training on the social epidemiology of systemic lupus erythematosus (SLE) and quantitative data analysis and programming, and secondary analysis of birth outcomes data from the Black Women’s Experiences Living with Lupus (BeWELL) Study.

Agency / Number: **NIH-NIAMS R01AR065493-07S1**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (Effort: 15%)
Period of Support: 09/17/2021 – 08/31/2024

Title: Emergency Competitive Revisions for COVID-19 Testing Interventions Among Underserved and Vulnerable Populations

Description: The purpose of this R01 competitive revision is to identify barriers and facilitators to COVID-19 testing and vaccination among people living with systematic lupus erythematosus (SLE) using both qualitative and quantitative methods. We evaluate the efficacy of a novel peer-led intervention to enhancing these behaviors among people living with SLE and others in their household/social network using a randomized controlled trial design.

Agency / Number: **NIH-NCI R01-CA23514**

Principal Investigator: Harper, Felicity

Role / Effort: Subaward PI (1.25%)

Period of Support: 09/12/2019 – 08/31/2024

Title: African American Resilience in Surviving Cancer

Description: This study examines health-related quality of life among African American breast and prostate cancer survivors, identifying significant domains of causal influence, pathways to health, and modifiable factors. This goal is achieved through collaboration with community stakeholders. Findings from this study will help inform the development of interventions to address causes of poor health-related quality of life experienced by African American cancer survivors.

Agency / Number: **Robert Wood Johnson Foundation Grant #78477**

Principal Investigator: LaVeist, Thomas

Role / Effort: Co-PI (1.0%)

Period of Support: 05/01/2021 – 04/30/2024

Title: Evolving Health Equity Research from Descriptive Analysis to Community-Partnered, Solutions-Oriented Investigation and Action to Advance Health Equity

Description: This grant will support the development of the Health Equity Research Learning Collaborative (HER-LC) which aims to stimulate the evolution of health equity research along the continuum, from descriptive research to community-partnered, solutions-oriented research and action.

Agency / Number: **NIH-NIDA R01-DA045773**

Principal Investigator: Bowleg, Lisa

Role / Effort: Subaward PI (10%)

Period of Support: 07/01/2018 – 04/30/2024

Title: Reducing Black Men's Drug Use and Co-Occurring Negative mental and Physical Health Outcomes: Intersectionality, Social-Structural Stressors, and Protective Factors

Description: This study aims to examine the effects of stress experienced in multiple domains, and the modifying effect of reliance on substance use, mental health, and physical health outcomes among Black young gay, bisexual men, and men who have sex with men during emerging adulthood.

Agency / Number: **NIH-NIMHD R21MD014281**

Principal Investigator: Curtis, David

Role / Effort: Subaward PI (10%)

Period of Support: 05/05/2020 – 01/31/2024

Title: The Racial Social Structure and Unequal Risk of Adverse Birth Outcomes among Black Infants

Description: This project will examine numerous indicators of structural racism and their association with adverse birth outcomes among Black infants and Black-White disparities in birth outcomes.

Agency / Number: **Rheumatology Research Foundation**
Principal Investigator: Danila, Maria
Role / Effort: Subaward PI (5%)
Period of Support: 01/01/2021 – 12/31/2023
Title: Tele-Rheumatology for Delivering High Quality Rheumatology Care During COVID-19 Crisis
Description: Compare implementation of different modalities of TM for ongoing chronic disease management during COVID-19 pandemic.

E.2. COMPLETED

Agency / Number: **Alabama Agricultural Experiment Station (Relinquished)**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (Effort: 50%)
Period of Support: 10/01/2018 – 09/30/2023
Title: Black Women's Experiences Living with Lupus (BeWELL) Study
Description: This project will examine social determinants of health among African American women living with lupus and identify psychobiological pathways impacting disease severity.

Agency / Number: **NIH-NHLBI F31MD014672**
Principal Investigator: Michaels, Eli
Role / Effort: Co-Sponsor (Effort: In-kind)
Period of Support: 01/15/2020 – 05/15/2022
Title: Collective Racial Bias and Cardiovascular Risk Among Black and White US Adults
Description: The proposed research aims to better understand the association between multiple forms of racism and Black-White cardiovascular disparities in the United States. This will be achieved by leveraging "Big Data" to measure place-level collective racial bias and merging with an existing longitudinal cohort study, which includes data on experiences of discrimination and biomarker of cardiovascular risk progression from young- to middle-adulthood.

Agency / Number: **NIH-NIAMS F31AR076234**
Principal Investigator: Martz, Connor
Role / Effort: Sponsor (Effort: In-kind)
Period of Support: 08/12/2019 – 12/11/2021
Title: Biopsychosocial Mechanisms of Lupus Progression Among African American Women
Description: Racial disparities in systemic lupus erythematosus (SLE) progression are widening, and SLE complications disproportionately affect African American women. The proposed project will help to unravel the constellation of risk factors that contribute to poor health outcomes impacting African American women with SLE.

Agency / Number: **NIH-NIAMS R01AR065493**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (30%)
Period of Support: 05/01/2014 – 08/31/2021

Title: Psychosocial Stress and Lupus Disease Progression Among African American Women

Description: The purpose of this study is to examine whether the experience of racial minority stress is associated with disease progression and severity among African American women with lupus. This study aims to: (1) examine the role that psychosocial stressors experienced by African American women have in exacerbating SLE in this population; (2) identify social factors and psychological resources that are protective or buffer the effects of stress on SLE-related health declines; and (3) explore the biological implications of psychosocial stressors and SLE, in relation to elevated systemic inflammation and accelerated aging at the cellular level. This study will be the most in-depth investigation of the multifactorial nature of psychosocial stressors and their impact on SLE disease progression among African American women, and thus fills an important gap in the science on this understudied disease.

Agency / Number: **Auburn University Presidential Awards for Interdisciplinary Research**

Principal Investigator: Suppiramaniam, Vishnu

Role / Effort: Co-Investigator (Effort: In-kind)

Period of Support: 08/12/2019 – 08/31/2021 (Relinquished)

Title: Enhancing Research Productivity by Establishing a Center for Neuroscience

Description: The objective of this proposal is to establish a Center for Neuroscience (CNS) as a Flagship entity for Auburn University. The proposed CNS will feature several activities to foster extramurally-supported neuroscience research.

Agency / Number: **NIH-NHLBI R15HL140504**

Principal Investigator: Fuller-Rowell, Thomas E.

Role / Effort: Co-Investigator (10%)

Period of Support: 08/01/2018 – 07/31/2021

Title: Contemporaneous and Early Life Predictors of Sleep and Sleep Disparities Among College Students

Description: The goal of this study is to examine how childhood adversity and contemporaneous stress combine to influence sleep and sleep disparities during higher education.

Agency / Number: **Auburn University Presidential Awards for Interdisciplinary Research**

Principal Investigator: Chae, David H.

Role / Effort: Principal Investigator (15%)

Period of Support: 07/01/2018 – 06/30/2021 (Relinquished)

Title: Interdisciplinary Rural African American Research

Description: The objective of this project is to develop infrastructure for conducting interdisciplinary aging research studies in rural contexts. We will establish capacity at Auburn University to conduct epidemiologic studies of racial and rural aging disparities through the creation of three cores administered by the Society, Health, and Racial Equity (SHARE) Lab: (1) Community Engagement Core; (2) Sampling and Project Management Core; and (3) Biomarker Core.

Agency / Number: **DHHS-ACF 90FM0082-04-00**

Principal Investigator: Adler-Baeder, Francesca

Role / Effort: Consultant (Effort: In-kind)

Period of Support: 09/30/2015 – 09/29/2020

Title: The Alabama Healthy Marriage and Relationship Education Initiative: Testing the Efficacy of Healthy Marriage and Relationship Education (HMRE) Community-Based Programs

Agency / Number: **Auburn University Intramural Grants Program**
Principal Investigator: Hunter, Evelyn
Role / Effort: Co-Investigator (Effort: In-kind)
Period of Support: 05/01/2018 – 04/30/2020
Title: Pathways of Disparities in Multiple Sclerosis
Description: This project explores pathways through which psychosocial stressors, including those tied to race, negatively affect disease severity in African American patients with multiple sclerosis.

Agency / Number: **NIH-NIAMS R01AR065493-S1**
Principal Investigator: Chae, David H.
Role / Effort: Sponsor (Effort: In-kind)
Period of Support: 11/01/2017 – 04/30/2019
Title: Research Supplement to Promote Diversity in Health-Related Research
Description: This project is an administrative supplement to NIH-NIAMS R01AR065493: Psychosocial Stress and Lupus Among African American Women. The goal of this study is to enhance the career development of a post-doctoral candidate through research experience, mentorship, training, manuscript publication, and grant preparation activities.

Agency / Number: **University of Maryland, College Park Tier 1 Seed Grant Program**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (10%)
Period of Support: 01/01/2016 – 12/31/2016 (Relinquished)
Title: Discrimination and Health Among African American Gay Men Living With HIV
Description: Through a mixed-methods design, this study will: (1) explore salient sources of psychosocial stress among African American HIV-positive gay men, and refine measures of discrimination for use in this population; (2) examine the utility of biomarkers of inflammation and cumulative physiologic damage in the context of HIV; and (3) obtain preliminary evidence of the impact of psychosocial stressors on mental, behavioral, and clinical health outcomes. This study will advance methodological knowledge on HIV-related research and also provide preliminary evidence for a grant submission to the National Institutes of Health to investigate how qualitatively unique psychosocial stressors shape health trajectories among African American HIV-positive gay men.

Agency / Number: **University of Maryland, College Park Tier 1 Seed Grant Program Summer Research and Scholarship Award (RASA)**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (10%)
Period of Support: 06/01/2016 – 08/31/2016 (Relinquished)
Title: Internet-Based Measures of Social Inequalities and Birth Outcomes
Description: This study examines the psychometric properties of an Internet query-based measure of racism at the area-level and its utility in predicting birth outcomes among Black women, which previous research has shown is susceptible to racism-related stress. In addition, a new Internet-based measure of bias against sexual minorities (e.g., gay, lesbian, bisexual groups) will be developed.

Agency / Number: **NIH-NIA K01AG041787**
Principal Investigator: Chae, David H.

Role / Effort: Principal Investigator (75%)
Period of Support: 09/30/2012 – 05/31/2016
Title: Psychobiology of Racial Minority Stress and Cellular Aging
Description: The purpose of this career development grant is to gain a broad foundation of knowledge on psychobiological stress pathways, and more in-depth knowledge on telomere maintenance and function. This training is aimed at facilitating the integration of biomarkers of inflammation and endocrine stress markers, in addition to research on leukocyte telomere length (LTL) in epidemiologic studies of racial minority stress and health. The research plan which is aimed at: (1) identifying inflammatory markers and endocrine markers of stress that cluster with LTL and subsequently predict aging-related health outcomes, thereby providing evidence of biological mechanisms impacting LTL and disease processes; (2) examining whether racial discrimination is associated with LTL, and identifying psychological and biological factors that may be on the pathway linking this exposure and outcome; and (3) exploring other psychosocial factors associated with racial minority status, such as affective and cognitive responses to racial discrimination, coping, racial identity, in-group racial bias, and racial socialization, which may also impact LTL and aging-related disease outcomes.

Agency / Number: **Robert Wood Johnson Foundation Nurse Faculty Scholars Program Grant #70317**
Principal Investigator: Woods-Giscombé, Cheryl
Role / Effort: Consultant (Contract, effort not measured)
Period of Support: 09/01/2012 – 08/31/2015
Title: Stress, Superwoman Schema, and Obesity Risk in African American Women: Developing a Culturally-Relevant Intervention to Reduce Health Disparities
Description: This study involves the investigation of the influence of stress, Superwoman Schema, and stress-related coping strategies (emotional eating and sedentary behavior) on obesity and diabetes risk factors in African American women.

Agency / Number: **NIH Loan Repayment Program, Health Disparities Research**
Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (Contract, effort not measured)
Period of Support: 08/08/2007 – 05/19/2014
Title: Health Disparities Research
Description: Loan Repayment Program

Agency / Number: **Robert Wood Johnson Foundation, University of California, Berkeley**
Principal Investigator: Nuru-Jeter, Amani M.
Role / Effort: Co-Investigator (Effort: In-kind)
Period of Support: 07/01/2010 – 06/30/2012
Title: African American Women's Heart and Health Study
Description: This study examines inflammatory pathways linking racial minority stress and cardiovascular health among African American women in the San Francisco Bay Area. Psychosocial variables include measures of racial identity, racial socialization, coping style, and stereotype threat. Role

Agency / Number: **NIH-NIMH R01MH084963**
Principal Investigator: Lincoln, Karen D
Role / Effort: Consultant (Contract, effort not measured)

Period of Support: 09/15/2009 – 06/20/2012
Title: Risk and Protective Factors for Depression Among Racial Groups
Description: This study involves analysis of data from the Collaborative Psychiatric Epidemiology Surveys (CPES) to examine social and psychological risk and protective factors for depression across and within racial/ethnic groups – Asian, Black, Latino, and non-Hispanic White. This research focuses on heterogeneity across as well as within racial/ethnic populations to examine how differences in social arrangements and relationships impact mental health.

Agency / Number: **Robert Wood Johnson Foundation, University of California, San Francisco**

Principal Investigator: Chae, David H. and Adler, Nancy E.
Role / Effort: Principal Investigator (Effort: In-kind)
Period of Support: 01/31/2008 – 08/31/2010
Title: Discrimination and Cardiovascular Health: The Bay Area Heart Health Study
Description: This study focuses on the influence of racial discrimination on cardiovascular health outcomes among African American adult men between 30-50 years of age. Cardiovascular endpoints that were examined were cardiovascular health history, medication use, and blood pressure. Psychological variables were dimensions of racial group identity, and cognitive and affective psychological mediators.

Agency / Number: **Department of Health and Human Services, Mathematica Policy Research**

Principal Investigator: Lincoln, Karen D., and Chae, David H.
Role / Effort: Principal Investigator (Contract, effort not measured)
Period of Support: 07/01/2008 – 06/30/2010
Title: Stress, Marital Satisfaction, and Mental Health Among African Americans
Description: This study investigates the influence of stress on marital satisfaction and psychological distress among married African Americans using data from the National Survey of American Life (NSAL; 2001-2003). Two forms of stress that are pervasive and salient in the lives of married African Americans were examined – financial strain and experiences of discrimination. The goal of this project was to examine the effects of these stressors on marital satisfaction and psychological distress.

Agency / Number: **NIH-NIMH K01MH069923-03**

Principal Investigator: Lincoln, Karen D.
Role / Effort: Consultant (Contract, effort not measured)
Period of Support: 01/01/2004 – 09/14/2009
Title: Racial Differences in Social Relations and Depression
Description: The aim of this project was to examine relations between psychosocial stressors, including negative interactions and socioeconomic deprivation, on mental health outcomes among racial/ethnic minorities. In addition, this project sought to identify social and personal resources which may mitigate the negative influence of stress on mental health.

Agency / Number: **Ford Foundation, Institute for Gay and Lesbian Strategic Studies
The Williams Institute, University of California, Los Angeles**

Principal Investigator: Chae, David H.
Role / Effort: Principal Investigator (Contract, effort not measured)
Period of Support: 09/01/2006 – 09/30/2008

Title: Assessment of Sexuality among Latino and Asian Americans
 Description: This study examined sexuality among Latino and Asian Americans using data from the National Latino and Asian American Study (NLAAS; 2001-2003), and investigated implications of sexual minority status for discrimination and significant psychological distress (SPD). This study examined if discrimination may account for higher levels of psychological distress found in sexuality minority populations.

Agency / Number: **Ford Foundation, Institute for Gay and Lesbian Strategic Studies
 The Williams Institute, University of California, Los Angeles**

Principal Investigator: Chae, David H.
 Role / Effort: Principal Investigator (Contract, effort not measured)
 Period of Support: 09/01/2006 – 09/30/2008
 Title: Working Class Sexual Minority Health
 Description: This study focused on different dimensions of sexuality (self-identification and behavior) in relation to experiences of discrimination and mental health in a racially diverse sample of working class people recruited to the United for Health Study (2003-2004). This study identified salient sources of discrimination and psychological distress confronting working class sexual and racial minorities.

H.2. COURSE DESCRIPTIONS

SPHL 6100 Health Equity

Tulane University, Tulane School of Public Health & Tropical Medicine

Description: This course critically evaluates the causes of health inequities, including the role of racism, sexism/genderism, classism and other systems of oppression. This course assesses approaches to achieving health equity in public health practice, and fosters cultural competency, including tools for addressing implicit bias individually and in organizations, as well as approaches for allyship.

HUSC 5950/6950 Seminar on Health Ecology and Equity Research

Auburn University, Human Development and Family Studies, College of Human Sciences

Description: This course provides student with exposure to specialized topics in health ecology and equity research. It is seminar style and features distinguished lecturers. Instructor Spring 2018, Spring 2019

EPIB 661 Epidemiology of Racial Disparities in Health

University of Maryland, College Park, School of Public Health

Description: Enduring racial disparities in health in the U.S. represent a critical public health dilemma. This course critically evaluates research on race, racism, and health from an epidemiologic perspective. Using a population-based lens, this course examines how race has been conceptualized and measured, teases out underlying assumptions, and discovers the sources of racial disparities in health. Instructor Spring 2016

EPIB 698J Epidemiologic Methods for Primary Research

University of Maryland, College Park, School of Public Health

Description: This doctoral-level course provides students with the knowledge and skills to design and implement epidemiologic research studies and to collect primary data. This course presents an overview of types of research designs, sampling methodologies, measurement issues, questionnaire design, and data collection procedures. Goals of this course include: (a) achieving competence in designing and implementing studies based on scientifically sound epidemiologic research methods; and (b) gaining the ability to critically evaluate health research and epidemiologic studies. Instructor Fall 2014

BSHE 540 Behavioral Research Methods

Emory University, Rollins School of Public Health

Description: This course provides students with knowledge about designing and conducting health behavior research and an overview of various types of research, with an emphasis on conducting survey research. Topics include experimental and observational research designs, sampling methods, measurement, questionnaire development, and survey administration. Instructor Fall 2012, Fall 2011 (2 sections), Fall 2010

BSHE 590 Capstone Seminar, Health Disparities

Emory University, Rollins School of Public Health

Description: Health disparities are inequitable and unjust patterns in the population-level distribution of disease. This course provides an overview of population-level theories of health, and analyzes major themes in the social determinants of health, including poverty, social class, and the role of economic policies; gender and sexuality; race and racism; area-level and neighborhood factors; and social interventions. This course reviews empirical and theoretical literature on the effects of social forces in generating health disparities. Instructor Spring 2012

BSHE 590 Capstone Seminar: Race and Health

Emory University, Rollins School of Public Health

Description: Enduring racial disparities in health in the U.S. are traced not to “the problem of race” but “the problem of racism” – spanning multiple ecological levels and domains, and across various health outcomes – generating distinct patterns in resiliency and vulnerability to disease along the color line. This course contextualizes the persistent association between race and health as being informed by broader historical and socio-cultural forces. Specific topics that will be covered are: discrimination; intersections with socioeconomic position; place and race; immigration and migration; health care and policy; and processes of embodiment. Instructor Spring 2011

PH 255A Introduction to Social Epidemiology

University of California, Berkeley, School of Public Health

Description: This course introduces students to the field of social epidemiology and its role in understanding the social determinants of population health and health disparities. This course will provide a systematic and selected overview of literature in the field covering the history and development of the field of social epidemiology, theoretical perspectives, major topical areas, conceptual approaches, and current controversies related to theory, research methods, and research findings. This is a breadth course intended to provide an overview of the field of social epidemiology. Co-Instructor Spring 2008
